Both Houses Pass War Draft, The senate approved and sent to the White House the conference report on the Hay resolution authorizing the president to draft into the federal service all National Guardsmen taking the prescribed oath.

It was apparent about the war and state departments that release of the prisoners has made the situation less critical. It had no effect, however, on the effort to speed up the mobilization of the National Guard along the international line and to furnish an adequate supply of war material to meet any emergency.
